

Case study

Project

New rehabilitation gym for the Wessex Reserves.

The brief

To remodel and refurbish an existing building to provide a new gymnasium and rehabilitation suite for injured soldiers.

The works include

- Demolition and asbestos removal.
- A new electrical lighting and alarm system.
- Refurbishment of the existing heating and mechanical system.
- Extensive changing room remodelling.
- Sport surfacing.
- Complete finishing's package including re-plastering, painting and flooring.
