Case study

Project

New children's nursery

The brief

To convert an existing listed barn and store to provide new accommodation for a school nursery.

The work included

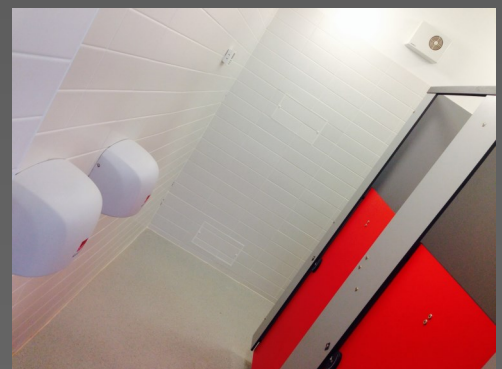

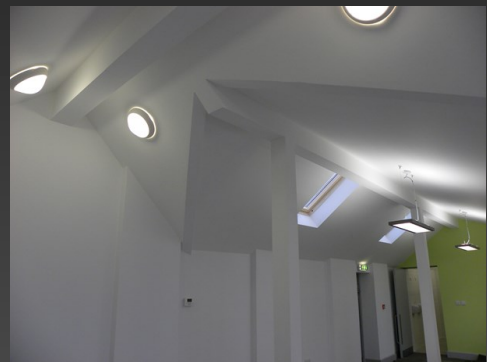

- Careful removal of the existing roof and floor construction.
- Sympathetically rebuilding large areas of the existing structure creating large, light and airy spaces.
- Replacing the roof utilising traditional reclaimed materials and lead work to all flat roof areas.
- Installing high levels of insulation throughout.
- Installing contemporary lighting and under floor heating.
